

Features:

- Ideal hash rate: 13.5TH/S (-5% ~ +10%)
- Dimensions: 294mm*147mm*161mm
- Net Weight: 5.2KG
- Network connection: Ethernet

Product Introduction:

Ebit Miner E9i adopts the latest independent developed chip, ideal hash rate can be 13.5TH/S. It has low power, high hash rate advantage, and using the independent heat sink, with excellent heat dissipation. Heat sink using the latest bonding technology, shell material is more robust, to provide better protection for your machine and bring high benefit to the global miners.

Technical Parameters:

Attribute	Ideal hash rate	13.5TH/S (-5%~+10%)
	Power consumption ratio on the wall for reference	105W/T (-10%~+20% @25°C)
	Chip Model	30 pcs per hash board
	Power interface	Pin
	Rated Power (100-140V input)	800W
	Dimensions	294mm*147mm*161mm
	Net Weight	5.2kg
	Network connection	Ethernet
