

Unmanaged Industrial Ethernet Switch 4FE 1FX

P/N : [ITT-SW3911](#)

- 12-36VDC wide voltage range power inputs
- As low as 2 watts load power consumption
- -40 to 85°C operating temperature range
- IP40 protection class with metal housing
- Fanless design
- Level 4 EMC Protection

The ITT-4FE1FX-I-DC provides 4*electrical Fast Ethernet ports and 1*optical Fast Ethernet port. All models are with IP40 protection class and meet EMC industrial level 4 requirements. It provides 12-36 VDC wide voltage range power inputs, DIN rail mounting, wide operating temperature range of -40 to the +85°C. In addition to its compact size for space-saving installation, each product has passed a 100% burn-in test in 85°C to ensure its quality.

All of these features make the product ideal for applications that require high-reliability transmission , such as video surveillance, tolling systems, ITS, and factory automation.
